About the Native Wellness Assessment™:

The Native Wellness Assessment™(NWA™) was launched on June 25, 2015 and is the first of its kind in the world. Statistically and psychometrically, the NWA™ content and structure performed well, demonstrating that culture is an effective and fair intervention for Indigenous Peoples with addictions. The NWA™ can inform Indigenous health and community-based programs and policy. The NWA™ is a product of the Honouring Our Strengths: Indigenous Culture as Intervention in Addictions Treatment (CasI) research project whose team included Indigenous and non-Indigenous researchers from across Canada, Elders, Indigenous knowledge keepers, cultural practitioners, service providers, and decision makers. To learn more about the validation of the NWA™ visit: <http://nnapf.com/nnapf-document-library/>
